

Green Living™ Technologies, LLC

Green Living™ Roofs

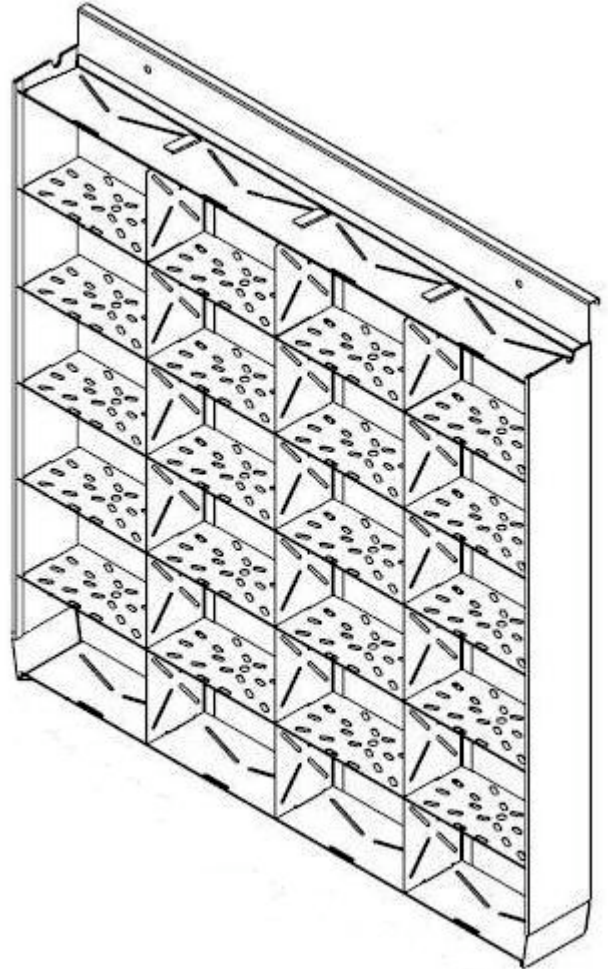

Green Living™ Walls and Accessories

Patented Cell Technology:

- A. Large 4"x 6" cells allow for true 4" potted plants for almost immediate coverage.
- B. Free drainage in both the horizontal and vertical planes. Result in no sitting water preventing root rot.
- C. Due to the slotted horizontal and vertical planes, the plants have unlimited root migration preventing any root bound plants.

The cell technology allows for superior drainage and unlimited root migration, two key elements for healthy plant survival.

- Multiple planting depths available in standard 3", 4" and 6" depths.
- Easy to install mounting system. Can be mounted interior or exterior. Free-standing or to an existing surface.
- Can create concave and convex curves.
- Safety hems prevent sharp edges.
- Available in Aluminum, Stainless and Zinc. Will not warp or crack in heat and cold extremes like other plastics.
- Minimum 15 year warranty.
